\*Represents value less than ₹0.50 crore.

Loss of ₹37 crore and ₹10 crore on remeasurement of defined employee benefit plans (net of tax) is recognised as a part of retained earnings for six months ended September 30, 2024 and 2023, respectively.

**TATA CONSULTANCY SERVICES LIMITED**  
**Condensed Standalone Interim Statement of Changes in Equity**

**Nature and purpose of reserves**

**(a) Capital reserve**

The Company recognises profit and loss on purchase, sale, issue or cancellation of the Company's own equity instruments to capital reserve.

**(b) Capital redemption reserve**

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve is utilised in accordance with the provisions of section 69 of the Companies Act, 2013.

**(c) Special Economic Zone re-investment reserve**

The Special Economic Zone (SEZ) re-investment reserve is created out of the profit of eligible SEZ units in terms of the provisions of section 10AA(1)(ii) of the Income-tax Act, 1961. The reserve will be utilised by the Company for acquiring new assets for the purpose of its business as per the terms of section 10AA(2) of Income-tax Act, 1961.

**(d) Retained earnings**

This reserve represents undistributed accumulated earnings of the Company as on the balance sheet date.

**(e) Investment revaluation reserve**

This reserve represents the cumulative gains and losses arising on the revaluation of equity and debt instruments on the balance sheet date measured at fair value through other comprehensive income. The reserves accumulated will be reclassified to retained earnings and statement of profit and loss respectively, when such instruments are disposed.

**(f) Cash flow hedging reserve**

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the underlying hedged transaction occurs.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**1) Corporate information**

Tata Consultancy Services Limited (referred to as “TCS Limited” or “the Company”) provides IT services, consulting and business solutions and has been partnering with many of the world’s largest businesses in their transformation journeys. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions. This is delivered through its unique Location-Independent Agile delivery model recognised as a benchmark of excellence in software development.

The Company is a public limited company incorporated and domiciled in India. The address of its corporate office is TCS House, Raveline Street, Fort, Mumbai - 400001. As at September 30, 2024, Tata Sons Private Limited, the holding company owned 71.74% of the Company’s equity share capital.

The Board of Directors approved the condensed standalone interim financial statements for six months ended September 30, 2024 and authorised for issue on October 10, 2024.

**2) Statement of compliance**

These condensed standalone interim financial statements have been prepared in accordance with the Indian Accounting Standard (referred to as “Ind AS”) 34 Interim Financial Reporting prescribed under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company’s financial position and performance since the last annual financial statements, wherever applicable.

**3) Basis of preparation**

These condensed standalone interim financial statements have been prepared on historical cost basis except for certain financial instruments and defined benefit plans which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Company’s normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

The statement of cash flows has been prepared under indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expense associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value to be cash equivalents.

These condensed standalone interim financial statements have been prepared in Indian Rupee (₹) which is the functional currency of the Company. Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are retranslated at the exchange rate prevailing on the balance sheet dates and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated.

The material accounting policy information related to preparation of the condensed standalone interim financial statements have been discussed in the respective notes.

**4) Use of estimates and judgements**

The preparation of condensed standalone interim financial statements in conformity with the recognition and measurement principles of Ind AS requires management of the Company to make estimates and judgements that affect the reported balances of assets and liabilities, disclosures of contingent liabilities as at the date of condensed standalone interim financial statements and the reported amounts of income and expenses for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The Company uses the following critical accounting judgements, estimates and assumptions in preparation of its condensed standalone interim financial statements:

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**(a) Revenue recognition**

Revenue for fixed-price contracts is recognised using percentage-of-completion method. The Company estimates the future cost-to-completion of the contracts which is used to determine degree of completion of the performance obligation.

The Company exercises judgement for identification of performance obligations, determination of transaction price, ascribing the transaction price to each distinct performance obligation and in determining whether the performance obligation is satisfied at a point in time or over a period of time. These judgements have been explained in detail under the revenue recognition note (Refer note 9).

**(b) Useful lives of property, plant and equipment**

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods (Refer note 8(a)).

**(c) Impairment of investments in subsidiaries**

The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the statement of profit and loss.

**(d) Fair value measurement of financial instruments**

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

**(e) Impairment of financial assets (other than at fair value)**

Measurement of impairment of financial assets require use of estimates, which have been explained in the note on financial assets, financial liabilities and equity instruments, under impairment of financial assets (other than at fair value) (Refer note 6).

**(f) Deferred tax assets**

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

**(g) Provisions and contingent liabilities**

The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting period and are adjusted to reflect the current best estimates.

The Company uses significant judgements to assess contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the condensed standalone interim financial statements.

**(h) Employee benefits**

The accounting of employee benefit plans in the nature of defined benefit requires the Company to use assumptions. These assumptions have been explained under employee benefits note (Refer note 11).

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**(i) Leases**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

**5) Recent pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. During six months ended September 30, 2024, MCA has notified Ind AS – 117 Insurance Contracts applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new standard and based on its evaluation has determined that it does not have any significant impact in its financial statements.

**6) Financial assets, financial liabilities and equity instruments**

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

**Cash and cash equivalents**

The Company considers all highly liquid investments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

**Financial assets at amortised cost**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**Financial assets at fair value through other comprehensive income**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

The Company has made an irrevocable election to present subsequent changes in the fair value of equity investments not held for trading in other comprehensive income.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**Financial assets at fair value through profit or loss**

Financial assets are measured at fair value through profit or loss unless they are measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of profit and loss.

**Investment in subsidiaries**

Investment in subsidiaries are measured at cost less impairment loss, if any.

**Financial liabilities**

Financial liabilities are measured at amortised cost using the effective interest method.

**Equity instruments**

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received net of direct issue cost.

**Derivative accounting**

**• Instruments in hedging relationship**

The Company designates certain foreign exchange forward, currency options and futures contracts as hedge instruments in respect of foreign exchange risks. These hedges are accounted for as cash flow hedges.

The Company uses hedging instruments that are governed by the financial risk management policy as approved by the Risk Management Committee. The policy provides principles on the use of such financial derivatives consistent with the risk management strategy of the Company. While determining the appropriate hedge ratio, the Company takes into consideration the prevailing macro-economic conditions, the availability and liquidity of the hedging instruments, tolerance levels for hedge ineffectiveness and the costs of hedging. The hedging activities are reviewed by the Risk Management Committee every quarter and future course of action is determined.

The hedge instruments are designated and documented as hedges at the inception of the contract. The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified in net foreign exchange gains in the statement of profit and loss.

The effective portion of change in the fair value of the designated hedging instrument is recognised in the other comprehensive income and accumulated under the heading cash flow hedging reserve.

The Company separates the intrinsic value and time value of an option and designates as hedging instruments only the change in intrinsic value of the option. The change in fair value of the intrinsic value and time value of an option is recognised in the other comprehensive income and accounted as a separate component of equity. Such amounts are reclassified into the statement of profit and loss when the related hedged items affect profit and loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in the statement of profit and loss when the forecasted transaction ultimately affects profit and loss. Any gain or loss is recognised immediately in the statement of profit and loss when the hedge becomes ineffective.

**• Instruments not in hedging relationship**

The Company enters into contracts that are effective as hedges from an economic perspective, but they do not qualify for hedge accounting. The change in the fair value of such instrument is recognised in the statement of profit and loss.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**Impairment of financial assets (other than at fair value)**

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. In determining the allowance for expected credit losses, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and allowance rates used in the provision matrix. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

**(a) Investments**

Investments consist of the following:

**Investments – Non-current**

	(₹ crore)	
	As at September 30, 2024	As at March 31, 2024

	<b>749</b>	<b>28,152</b>	<b>46</b>	<b>67</b>	<b>56,189</b>	<b>85,203</b>
<b>Financial liabilities</b>						
Trade payables	-	-	-	-	14,599	14,599
Lease liabilities	-	-	-	-	6,145	6,145
Other financial liabilities	-	-	-	109	6,492	6,601
	-	-	-	109	27,236	27,345

Carrying amounts of cash and cash equivalents, trade receivables, loans and trade payables as at September 30, 2024 and March 31, 2024, approximate the fair value due to their nature. Carrying amounts of bank deposits, earmarked balances with banks, other financial assets and other financial liabilities which are subsequently measured at amortised cost also approximate the fair value due to their nature in each of the periods presented. Fair value measurement of lease liabilities is not required. Fair value of investments carried at amortised cost is ₹1,521 crore and ₹940 crore as at September 30, 2024 and March 31, 2024 respectively.

**(i) Fair value hierarchy**

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

- Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The cost of unquoted investments included in Level 3 of fair value hierarchy approximate their fair value because there is a wide range of possible fair value measurements and the cost represents estimate of fair value within that range.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required):

As at September 30, 2024	(₹ crore)

**(j) Derivative financial instruments and hedging activity**

The Company's revenue is denominated in various foreign currencies. Given the nature of the business, a large portion of the costs are denominated in Indian Rupee. This exposes the Company to currency fluctuations.

The Board of Directors has constituted a Risk Management Committee (RMC) to frame, implement and monitor the risk management plan of the Company which inter-alia covers risks arising out of exposure to foreign currency fluctuations. Under the guidance and framework provided by the RMC, the Company uses various derivative instruments such as foreign exchange forward, currency options and futures contracts in which the counter party is generally a bank.

The following are outstanding currency options contracts, which have been designated as cash flow hedges:

Foreign currency	As at September 30, 2024			As at March 31, 2024		
	No. of contracts	Notional amount of contracts (In million)	Fair value (₹ crore)	No. of contracts	Notional amount of contracts (In million)	Fair value (₹ crore)
US Dollar	5	150	2	19	475	6
Great Britain Pound	31	300	10	29	230	24
Euro	31	295	10	28	235	16

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

The movement in cash flow hedging reserve for derivatives designated as cash flow hedges is as follows:

	Six months ended September 30, 2024		Year ended March 31, 2024	
	Intrinsic value	Time value	Intrinsic value	Time value
	9	(18)	8	(28)
<b>Balance at the beginning of the period</b>				
(Gain) / loss transferred to profit and loss on occurrence of forecasted hedge transactions	(27)	107	(139)	241
Deferred tax on (gain) / loss transferred to profit and loss on occurrence of forecasted hedge transactions	7	(28)	31	(55)
Change in the fair value of effective portion of cash flow hedges	17	(129)	140	(228)
Deferred tax on change in the fair value of effective portion of cash flow hedges	(5)	35	(31)	52
<b>Balance at the end of the period</b>	<b>1</b>	<b>(33)</b>	<b>9</b>	<b>(18)</b>

The Company has entered into derivative instruments not in hedging relationship by way of foreign exchange forward, currency options and futures contracts. As at September 30, 2024 and March 31, 2024, the notional amount of outstanding contracts aggregated to ₹50,340 crore and ₹49,180 crore, respectively, and the respective fair value of these contracts have a net loss of ₹147 crore and loss of ₹42 crore.

Exchange loss of ₹648 crore and ₹58 crore on foreign exchange forward, currency options and futures contracts that do not qualify for hedge accounting have been recognised in the condensed standalone interim statement of profit and loss for three months ended September 30, 2024 and 2023, respectively.

Exchange loss of ₹573 crore and gain of ₹130 crore on foreign exchange forward, currency options and futures contracts that do not qualify for hedge accounting have been recognised in the condensed standalone interim statement of profit and loss for six months ended September 30, 2024 and 2023, respectively.

Net foreign exchange gain / (loss) include loss of ₹50 crore and ₹10 crore transferred from cash flow hedging reserve for three months ended September 30, 2024 and 2023, respectively.

Net foreign exchange gain / (loss) include loss of ₹80 crore and ₹51 crore transferred from cash flow hedging reserve for six months ended September 30, 2024 and 2023, respectively.

**(k) Equity instruments**

The authorised, issued, subscribed and fully paid up share capital consist of the following:

	(₹ crore)	
	As at September 30, 2024	As at March 31, 2024
<b>Authorised</b>		
460,05,00,000 equity shares of ₹1 each	460	460
(March 31, 2024: 460,05,00,000 equity shares of ₹1 each)		
105,02,50,000 preference shares of ₹1 each	105	105
(March 31, 2024: 105,02,50,000 preference shares of ₹1 each)		
	<b>565</b>	<b>565</b>
<b>Issued, Subscribed and Fully paid up</b>		
361,80,87,518 equity shares of ₹1 each	362	362
(March 31, 2024: 361,80,87,518 equity shares of ₹1 each)		
	<b>362</b>	<b>362</b>

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated. The Company is not subject to any externally imposed capital requirements.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

The Company bought back 4,09,63,855 equity shares for an aggregate amount of ₹17,000 crore being 1.12% of the total paid up equity share capital at ₹4,150 per equity share in the previous year. The equity shares bought back were extinguished on December 13, 2023.

**7) Leases**

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

**Company as a lessee**

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative standalone price of the lease component and the aggregate standalone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use asset is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 - Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

**Company as a lessor**

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 - Revenue from contracts with customers to allocate the consideration in the contract.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

The details of the right-of-use assets held by the Company is as follows:

	(₹ crore)	
	Additions for six months ended September 30, 2024	Net carrying amount as at September 30, 2024
Leasehold land	-	922
Buildings	1,821	6,228
Leasehold improvement	39	39
Computer equipment	-	134
Software licences	-	45
Vehicles	1	2
Furniture and fixtures	-	2
	<b>1,861</b>	<b>7,372</b>

	(₹ crore)	
	Additions for the year ended March 31, 2024	Net carrying amount as at March 31, 2024
Leasehold land	-	928

\*Represents value less than ₹0.50 crore.

Interest on lease liabilities is ₹136 crore and ₹108 crore for three months ended September 30, 2024 and 2023, respectively.

Interest on lease liabilities is ₹270 crore and ₹216 crore for six months ended September 30, 2024 and 2023, respectively.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**8) Non-financial assets and non-financial liabilities**

**(a) Property, plant and equipment**

Property, plant and equipment are stated at cost comprising of purchase price and any initial directly attributable cost of bringing the asset to its working condition for its intended use, less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation is provided for property, plant and equipment on a straight-line basis so as to expense the cost less residual value over their estimated useful lives as prescribed in Schedule II of the Companies Act, 2013 except in respect of certain categories of assets, where the useful life of the assets has been assessed based on a technical evaluation. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis.

The estimated useful lives are as mentioned below:

Type of asset	Useful lives
Buildings	20 years*
Leasehold improvements	Lease term
Plant and equipment	10 years*
Computer equipment	4 years*
Vehicles	4 years*
Office equipment	2-5 years*
Electrical installations	4-10 years*
Furniture and fixtures	5 years*

\*The Company believes that the technically evaluated useful lives, different from Schedule II of the Companies Act, 2013, best represent the period over which these assets are expected to be used.

Depreciation is not recorded on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

Property, plant and equipment with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

\*₹1,450 crore has been capitalised and transferred to property, plant and equipment during the year ended March 31, 2024.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**(b) Intangible assets**

Intangible assets purchased are measured at cost as at the date of acquisition, as applicable, less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licences which are amortised over licence period which equates the economic useful life ranging between 2-5 years on a straight-line basis over the period of its economic useful life.

Intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Intangible assets consist of the following:

	(₹ crore)
<b>Rights under licensing agreement and software licences</b>

Other provisions	1	1
	<b>85</b>	<b>71</b>

\*Represents value less than ₹0.50 crore.

**9) Revenue recognition**

The Company earns revenue primarily from providing IT services, consulting and business solutions. The Company offers a consulting-led, cognitive powered, integrated portfolio of IT, business and engineering services and solutions.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.
- Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight-lined over the period of performance.
- In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract costs incurred determining the degree of completion of the performance obligation. The contract costs used in computing the revenues include cost of fulfilling warranty obligations.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

- Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered significantly modifies or customises the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.
- Revenue from the sale of distinct third party hardware is recognised at the point in time when control is transferred to the customer.
- The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Revenue from subsidiaries is recognised based on transaction price which is at arm's length.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. Such costs are amortised over the contractual period or useful life of licence, whichever is less. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

Contract assets are recognised when there are excess of revenues earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there are billings in excess of revenues.

The billing schedules agreed with customers include periodic performance based payments and / or milestone based progress payments. Invoices are payable within contractually agreed credit period.

In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company disaggregates revenue from contracts with customers by nature of services, industry verticals and geography.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

Revenue disaggregation by nature of services is as follows:

	Three months ended September 30, 2024	Three months ended September 30, 2023	Six months ended September 30, 2024	Six months ended September 30, 2023	(₹ crore)

----------------------------	-------	-----	-------	-------

**11) Employee benefits**

**Defined benefit plans**

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Past service cost, both vested and unvested, is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognises related restructuring costs or termination benefits.

The retirement benefit obligations recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme.

The Company provides benefits such as gratuity, pension and provident fund (Company managed fund) to its employees which are treated as defined benefit plans.

**Defined contribution plans**

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

The Company provides benefits such as superannuation and foreign defined contribution plans to its employees which are treated as defined contribution plans.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**Short-term employee benefits**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognised in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid when there is a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

**Compensated absences**

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as undiscounted liability at the balance sheet date. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date using the Projected Unit Credit Method.

Employee benefit expenses consist of the following:

	(₹ crore)			
	Three months ended September 30, 2024	Three months ended September 30, 2023	Six months ended September 30, 2024	Six months ended September 30, 2023

**12) Cost recognition**

Costs and expenses are recognised when incurred and have been classified according to their nature.

The costs of the Company are broadly categorised in employee benefit expenses, cost of equipment and software licences, depreciation and amortisation expense and other expenses. Other expenses mainly include fees to external consultants, facility expenses, travel expenses, communication expenses, bad debts and advances written off, allowance for expected credit losses and doubtful advances (net) and other expenses. Other expenses are aggregation of costs which are individually not material such as commission and brokerage, recruitment and training, entertainment, etc.

	<b>9,454</b>	<b>9,975</b>	<b>18,993</b>	<b>20,349</b>

Other expenses include ₹1,191 crore and ₹1,201 crore for three months ended September 30, 2024 and 2023, respectively, towards sales, marketing and advertisement expenses and ₹631 crore and ₹702 crore for three months ended September 30, 2024 and 2023, respectively, towards project expenses.

Other expenses include ₹2,600 crore and ₹2,548 crore for six months ended September 30, 2024 and 2023, respectively, towards sales, marketing and advertisement expenses and ₹1,402 crore and ₹1,323 crore for six months ended September 30, 2024 and 2023, respectively, towards project expenses.

The Company made a contribution to an electoral trust of ₹218 crore and NIL for six months ended September 30, 2024 and 2023, respectively, which is included in other expenses.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**13) Finance costs**

Finance costs consist of the following:

	Three months ended September 30, 2024	Three months ended September 30, 2023	Six months ended September 30, 2024	Six months ended September 30, 2023	(₹ crore)
Interest on lease liabilities	136	108	270	216	
Interest on tax matters	(3)	-*	(2)	10	
Other interest costs	13	26	23	46	
	<b>146</b>	<b>134</b>	<b>291</b>	<b>272</b>	

\*Represents value less than ₹0.50 crore.

**14) Income taxes**

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

**Current income taxes**

The current income tax expense includes income taxes payable by the Company in India and in its branches in overseas where it operates.

The Company has recognised income tax expenses applying the provisions under section 115BAA of the Income-tax Act, 1961.

Current income tax payable by overseas branches of the Company is computed in accordance with the tax laws applicable in the jurisdiction in which the respective branch operates. The taxes paid are generally available for set off against the Indian income tax liability of the Company's worldwide income.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit intends to settle the asset and liability on a net basis.

The Organisation for Economic Co-operation and Development (OECD) has published the model rules for global minimum tax (Pillar Two model rules). Pillar Two legislation has been enacted, or substantively enacted, in certain jurisdictions where the Company operates. The Company is within the scope of the OECD Pillar Two model rules and has evaluated the potential exposure to global minimum tax. The Company does not expect any material financial impact for the current period. The evaluation of the potential exposure is based on the most recent country-by-country reporting, and financial statements for the constituent entities in the Company.

**Deferred income taxes**

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination, affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**Direct tax contingencies**

The Company has ongoing disputes with income tax authorities in India and in some of the other jurisdictions where it operates. The disputes relate to tax treatment of certain expenses claimed as deduction, computation or eligibility of tax incentives and allowances and characterisation of fees for services received. Contingent liability in respect of tax demands received from direct tax authorities in India and other jurisdictions is ₹1,793 crore and ₹1,794 crore as at September 30, 2024 and March 31, 2024, respectively. These demand orders are being contested by the Company based on the management evaluation and advise of tax consultants. In respect of tax contingencies of ₹318 crore and ₹318 crore as at September 30, 2024 and March 31, 2024, respectively, not included above, the Company is entitled to an indemnification from the seller of TCS e-Serve Limited.

The Company periodically receives notices and inquiries from income tax authorities related to the Company's operations in the jurisdictions it operates in. The Company has evaluated these notices and inquiries and has concluded that any consequent income tax claims or demands by the income tax authorities will not succeed on ultimate resolution.

**15) Earnings per share**

Basic earnings per share is computed by dividing profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The Company did not have any potentially dilutive securities in any of the periods presented.

	Three months ended September 30, 2024	Three months ended September 30, 2023	Six months ended September 30, 2024	Six months ended September 30, 2023
Profit for the period (₹ crore)	12,994	10,929	25,109	21,413
Weighted average number of equity shares	361,80,87,518	365,90,51,373	361,80,87,518	365,90,51,373
Basic and diluted earnings per share (₹)	35.91	29.87	69.40	58.52
Face value per equity share (₹)	1	1	1	1

**16) Segment information**

The Company publishes the condensed standalone interim financial statements of the Company along with the condensed consolidated interim financial statements. In accordance with Ind AS 108 - Operating Segments, the Company has disclosed the segment information in the condensed consolidated interim financial statements.

**17) Commitments and contingencies**

**Capital commitments**

The Company has contractually committed (net of advances) ₹2,090 crore and ₹1,939 crore as at September 30, 2024 and March 31, 2024, respectively, for purchase of property, plant and equipment.

**Contingencies**

- **Direct tax matters**

Refer note 14.

- **Indirect tax matters**

The Company has ongoing disputes with tax authorities mainly relating to treatment of characterisation and classification of certain items. The Company has demands amounting to ₹575 crore and ₹516 crore as at September 30, 2024 and March 31, 2024, respectively, from various indirect tax authorities which are being contested by the Company based on the management evaluation and advice of tax consultants.

- **Other claims**

- Claims aggregating ₹119 crore and ₹126 crore as at September 30, 2024 and March 31, 2024, respectively, against the Company have not been acknowledged as debts.
- In April 2019, Computer Sciences Corporation (referred to as CSC) filed a legal claim against the Company in the Court of Northern District of Texas and Dallas Division (trial court) alleging misappropriation of trade secrets and other CSC's confidential

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

information and sought preliminary and permanent injunctive relief, and unspecified monetary damages and disgorgement of profits.

A trial before an advisory jury was held and on November 17, 2023, the jury returned an advisory verdict in favour of CSC, finding that the Company misappropriated CSC's trade secrets and recommended compensation of US \$70 million (equivalent to ₹587 crore) and a further punitive damage of US \$140 million (equivalent to ₹1,173 crore) to be paid by the Company to CSC. Subsequently, the parties filed their respective written submissions in the matter. On June 13, 2024, the trial court passed a judgement as follows:

1. The Court ordered that the Company is liable to CSC for US \$56 million (equivalent to ₹469 crore) in compensatory damages and US \$112 million (equivalent to ₹939 crore) in exemplary damages.
2. The Court also assessed that the Company is liable for US \$25 million (equivalent to ₹209 crore) in prejudgment interest through June 13, 2024.
3. The Court also passed certain injunction and other reliefs against the Company.

The Company, based on external opinion and legal assessment, believes that it has a strong case and would defend its position vigorously and pursue legal remedies to overturn the adverse judgement of the trial court.

- In October 2014, Epic Systems Corporation (referred to as Epic) filed a legal claim against the Company in the Court of Western District Madison, Wisconsin alleging unauthorised access to and download of their confidential information and use thereof in the development of the Company's product MedMantra. Pursuant to unfavourable judgment from the District Court and Appeals Court which awarded US \$140 million as compensatory damages and US \$140 million as punitive damages, Epic invoked payment of US \$140 million out of US \$440 million Letter of Credit provided as security, towards compensatory damages in April 2022. The Company's petition to the Supreme Court to review the entire judgement including both the compensatory and punitive damages re-affirmed by the Appeals Court was rejected by the Supreme Court on November 20, 2023, pursuant to which, punitive damages of US \$140 million was paid on December 1, 2023. The Company provided the balance punitive damages amount of US \$115 million (equivalent to ₹958 crore) in its financial statements for the year ended March 31, 2024 and disclosed the same as an "exceptional item" in the consolidated statement of profit and loss.

• **Guarantees and letter of comfort**

The Company has given letter of comfort to banks for credit facilities availed by its subsidiaries. As per the terms of letter of comfort, the Company undertakes not to divest its ownership interest directly or indirectly in the subsidiary and provide such managerial, technical and financial assistance to ensure continued successful operations of the subsidiary.

The Company has provided guarantees to third parties on behalf of its subsidiaries. The Company does not expect any outflow of resources in respect of the above.

The amounts assessed as contingent liability do not include interest that could be claimed by counter parties.

**18) Related party transactions**

The Company paid an amount of ₹7,267 crore to Tata Sons Private Limited, the holding company, towards final dividend for the year ended March 31, 2024, as approved by the shareholders in the Annual General Meeting. Additionally, the Company also paid an amount of ₹2,595 crore towards interim dividend for the year ending March 31, 2025 as approved by the Board of Directors at its meeting

Pursuant to contract for procurement of hardware, software and services, advances of ₹500 crore has been paid to Tejas Networks Limited, a subsidiary of Tata Sons Private Limited, during six months ended September 30, 2024. Outstanding advances and trade payables pertaining to Tejas Networks Limited as on September 30, 2024 are ₹1,460 crore and ₹2,751 crore respectively.

Other than above, the Company's material related party transactions during the period and outstanding balances as on date are with its subsidiaries with whom the Company routinely enters into transactions in the ordinary course of business.

- 19) The Board of Directors approved post-employment benefits, payable to the retiring COO and Executive Director, which has been actuarially valued. Accordingly, the Company has recorded an expense of ₹22 crore during three months ended June 30, 2024.
- 20) The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the company towards Provident Fund and Gratuity. The Ministry of Labour and Employment had released draft rules for the Code on Social Security, 2020 on November 13, 2020. The Company will assess the impact and its evaluation once the subject rules are notified. The Company will give appropriate impact in its financial statements in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

**TATA CONSULTANCY SERVICES LIMITED**  
**Notes forming part of condensed standalone interim financial statements**

**21) Dividend**

The Board of Directors at its meeting held on October 10, 2024, has declared an interim dividend of ₹10.00 per equity share.
